DIRECTIONS TO THE CCC

The Curtis Culwell Center is conveniently located near the intersection of North Garland Avenue and the President George Bush Turnpike (Hwy. 190) in northeastern Dallas County and is just minutes away from Richardson, Plano, Rowlett and Rockwall. We are approximately 30 minutes away from Dallas/Fort Worth International Airport and Dallas Love Field Airport.

PARKING INFORMATION

- Advance arrangements for show parking should be made with the Event Manager/Coordinator.
- A limited number of trucks and buses are permitted in the Loading Dock Area.
- Personal vehicle parking is not permitted in the Loading Dock Area or any CCC Parking Lots.
- Only permitted vehicles will be granted access to the CCC Parking Lots. Parking passes are required to be displayed at all times.
- All “local” Production Crew, Vendors and Sub-Contractors are required to park in pre-designated areas. Event Manager/Coordinator will provide that information. (Locations vary per event)

LOADING DOCKS

5,058 square feet equipped with two bays featuring lifts and 14' high by 12' wide doors. A third door also at 14' high by 12' wide serves as a ramped entrance for vehicle access.

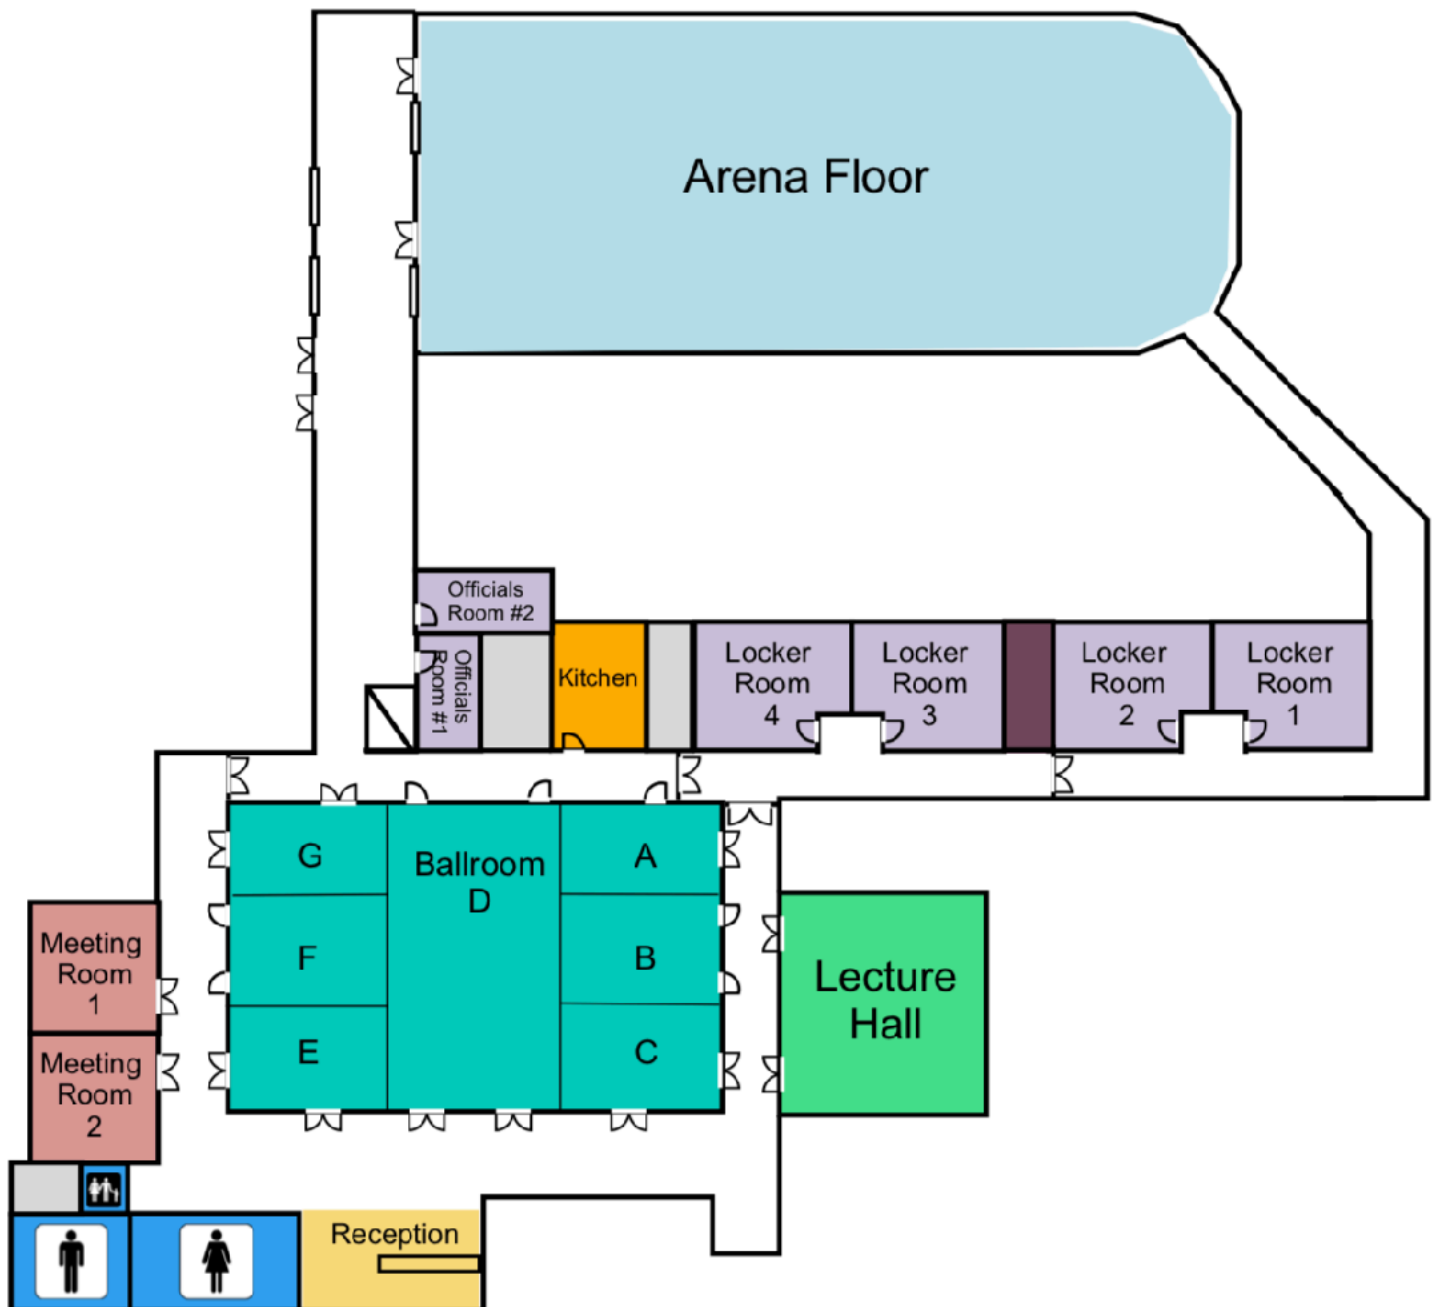

Three shore power hook-ups are located outside of the loading dock area.

Other features include:

- A security entrance
- Direct freight elevator access
- Smooth and level transition to and from Arena Floor
- Two 14' high by 12' wide doors into Arena from dock
- A ramped entrance to the Conference Center

House Curtain:	Drops from ceiling at mid-floor, dividing arena floor and seating in half
Catering:	Approved Catering List available upon request.

RIGGING INFORMATION

Horizontal Safety Line System

The system will allow the worker(s) to conduct work on the ceiling area of the arena while being safely attached to either the Safety Line System or the Safety Tiebacks. The system is designed for human use only and shall never be overloaded nor utilized for an other purpose than fall arrest deterrent.

The Safety Tiebacks are designed for a maximum working load of 1,250 lbs. per pedestal. The Safety Line System was designed to have no more than 2 (two) workers attached per section.

The additional Safety Lanyard is 3' in length and will act as an extension of the attachment point for the worker(s).

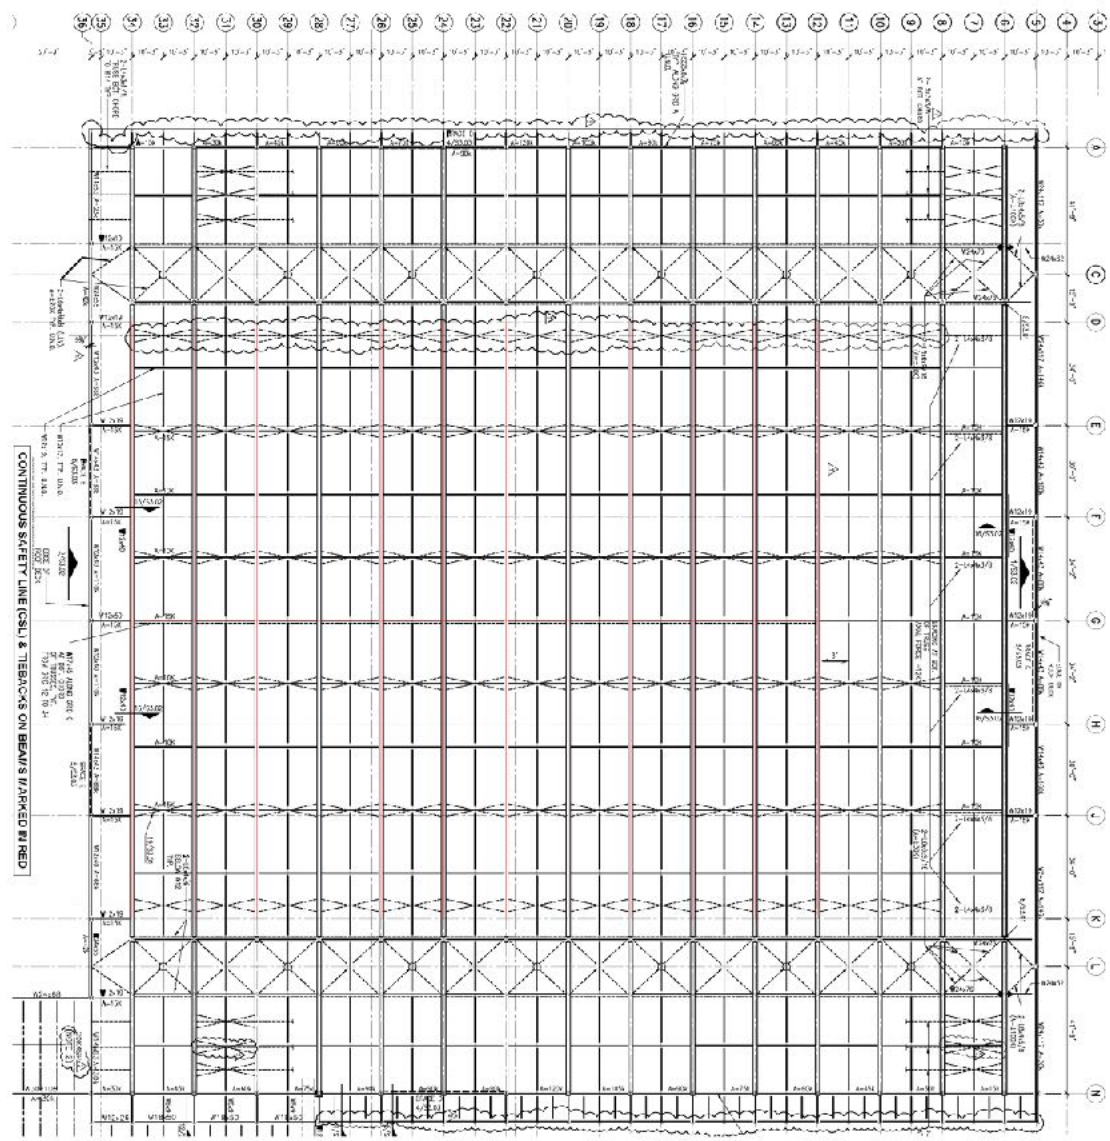

Safety Tieback: is considered a permanent attachment point for human usage only. This type of pedestal will allow the worker to safely work at a specific spot with tethered. ***Do not connect/hang any equipment or machinery to/from them.***

The Safety Line System will allow two (2) workers per section, to move around while working on any specific area. The workers will connect their personal harness safety line to the 3' lanyard.

IMPORTANT NOTE: Once all work has been completed, the lanyards must be properly secured to the closest cross member of the structure.

ARENA VIEW SUITES

Six individual open-air suites overlook the Arena for corporate meetings or entertaining. Each suite has a hospitality area and fourteen Arena seats immediately adjacent for guest use during shows. The suites can be paired for larger groups. There are four rooms on the east side and two rooms on the west side.

*Air-suites subject to availability.

CONCOURSE

The Curtis Culwell Center 18,000+ square foot, panoramic view, upper concourse has become a favorite entertaining spot. The unique area allows arena users to set-up merchandise areas, sponsorship activations, informations booths, etc.

THE WEST PLAZA

Located on the main concourse of the CCC, The West Plaza is a premier spot to sip, dine and socialize. This open lounge area offers bars, cocktail tables and comfortable seating with conveniently located 70" screen TV's.
